PIYUSH JAIN

Full-Stack Developer | AI/ML Enthusiast

Gurugram, Haryana, India | +91 85958 50153 | Piyushjain1857@gmail.com
Portfolio: piyush-jain-portfolio.vercel.app | GitHub: github.com/Piyushjain1857 | LinkedIn: linkedin.com/in/piyushjain1857

PROFESSIONAL SUMMARY

B.Tech Computer Science & Engineering student specializing in Artificial Intelligence & Machine Learning, with hands-on experience building full-stack web applications using React, Vite, Python, FastAPI, SQL and REST APIs. Interested in software development, AI/ML applications, data structures and building practical products from idea to deployment.

EDUCATION

K.R. Mangalam University — Bachelor of Technology (B.Tech), Computer Science & Engineering

Specialization: Artificial Intelligence & Machine Learning | 2025 – Present

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML, CSS, SQL

Frontend: React.js, Vite, HTML5, CSS3, Responsive Web Design

Backend: Python, FastAPI, REST APIs

Databases: MySQL, PostgreSQL

Tools: Git, GitHub, VS Code, Vercel, Render

Core: Data Structures & Algorithms, OOP, DBMS, Web Development, APIs

PROJECTS

StreamHub — OTT Streaming Platform

React.js • Vite • JavaScript • CSS

• Built a Netflix-inspired OTT platform with responsive UI, content categories, watch pages, continue-watching functionality and profile-switching interface. Deployed the project publicly.

CURIO — Cloud-Based Online Quiz System

React.js • FastAPI • Python • PostgreSQL

• Designed a cloud-based quiz platform with role-based access and interactive quiz workflows, with planned adaptive quizzes, smart recommendations, weak-topic detection and leaderboards.

Agro AI — AI-Based Crop Disease Detection

React • Python • AI/ML

• Developed a hackathon-focused solution for identifying crop diseases from uploaded images, with remedy recommendations and supporting weather information.

Hostel Leave Management System

React • Python • REST API • Database

• Developed a digital platform for hostel leave requests, tracking and backend API integration; deployed the backend using Render.

ACHIEVEMENTS & ACTIVITIES

• **Top 60 Team — Hack KRMU 5.0:** Participated in a 54-hour national-level hackathon as Team Leader of a four-member team.

• **100 Days of LeetCode:** Following a structured daily DSA problem-solving challenge covering algorithms, data structures and coding patterns.

• Built and deployed multiple academic and personal full-stack web projects.

INTERESTS

Full-Stack Development • Artificial Intelligence • Machine Learning • Data Structures & Algorithms • Product Development • Open Source
